## PROFESSIONAL SUMMARY

Finance Manager with 3+ years transforming financial disorder into strategic advantage for family businesses and startups. Cut operating costs from 64% to 53% and grew operating profit from 36% to 47% — simultaneously. Built Rhythm Integrated Solutions' full finance department from zero, manages a 35M+ EGP capital base, leads a team of 8, and founded "CFO Assistant" — a proprietary digital tool automating KPI reporting and cash flow alerts. Known for the Profitability Gate model enforcing 40%+ gross margin on every project before execution approval.

## PROFESSIONAL EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                     |

| <b>Accountant</b><br>Smile Patisserie <ul style="list-style-type: none"><li>Handled full-cycle accounting: branch, treasury, fixed assets, inventory, and store reconciliations.</li><li>Analyzed product cost accounting to support pricing — directly impacting margin decisions.</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Dec 2022 – Dec 2023 |

## KEY ACHIEVEMENTS

- ◆ Promoted 3 times in 13 months — from Accountant to Finance Manager — by delivering measurable results at each level.
- ◆ Cut operating costs from 64% to 53% through daily cost monitoring, procurement discipline, and waste elimination.
- ◆ Grew operating profit margin from 36% to 47% simultaneously — proving efficiency and growth can be engineered together.
- ◆ Built the entire finance department of Rhythm Integrated Solutions from zero — policies, systems, controls, team of 8.

- ◆ Invented the "Profitability Gate": pre-execution filter ensuring every project clears 40%+ gross margin — adopted company-wide.
- ◆ Founded "CFO Assistant": proprietary platform replacing manual reporting with automated KPI dashboards and cash flow alerts.
- ◆ Identified monthly breakeven thresholds providing early warning signals — prevented at least one liquidity crisis.
